To: Ms. Haab, Superintendent of Schools
From: Ms. Maria McCarthy, Food Service Director
Date: May 28, 2013
Subject: April 2013 – Activity Report for Foodservices

A) Meal Counts

- Breakfast – average meal count is now averaging 296 per day. The highest breakfast count was 628. This was due to the school wide breakfast that was offered at the Middle School during two of the state wide testing days. These figures only include reimbursable meals, not a la carte sales. Participation district wide was 16%.

- Lunch – average meal count is now 949 per day. The highest lunch meal count was 1055 per day. Participation district wide was 53%.

B) Highlights

- Hosted the High School Honor Society reception.
- Assisted with the PARP ice cream social held at the Elementary school.
- Coordinated school wide breakfast days on April 17th and 25th at the Middle school as requested by Mr. Seyler-Wetzel.
- Participated in the Community Forum at the High School.
- Attended the Healthier Hudson Valley Challenge Conference offered at the New Paltz Conference Center.
- Provided breakfast set up for the college fair.
- Met with BOCES to prepare food bid for next school year.

Technology Services Report
June 4, 2012
Carol Potash

Technology Goal:

Update workstations to Windows 7.

- Objectives
  - Use virtualized desktops on capable, older equipment, rather than replacing.
    - Requires determination of platform to use.
    - Requires server research – cost, storage space, etc.
    - Requires installation of all platforms and operating systems to the server, testing, and operational capacity within existing infrastructure.
  - Purchase new ‘thin clients’ to work within virtualized environment for those workstations that need to be replaced. (Required testing of various types of thin clients.)
  - Install Windows 7 on existing, capable, workstations.
  - Purchase new workstations outright for some areas.

In working towards this goal, the Tech. Services Dept. has been working diligently. We have tested two virtualization platforms which required re-using aging hardware, re-configuring this server to the specifics necessary to each platform tested.

For each platform tested (VM-Ware vs. Microsoft’s Hyper-V), we tested this virtualized desktop on existing workstations around the district. This required configuring policies, workstations, etc., in order to receive the virtualized desktop.

Microsoft’s Hyper-V will be cheaper to run at this point, and will work within our existing Microsoft network. A small server was purchased for this purpose. This server has been installed and brought into production. The pre-existing server is currently being used for necessary storage.

Workstation Counts

<table>
<thead>
<tr>
<th>Workstation to be replaced altogether.</th>
<th>All teacher machines cannot be used as virtual machines. Some admin., support staff.</th>
<th>Estimated 175</th>
</tr>
</thead>
<tbody>
<tr>
<td>Workstation to be used as a virtualized desktop or upgraded to Win 7.</td>
<td>All student machines, labs, libraries, some secretaries, support services can be used as a virtual machine.</td>
<td>Estimated 300</td>
</tr>
<tr>
<td>Workstation to be replaced by a ‘thin client.’</td>
<td>Some student, secretarial, and support service machines can be replaced by a ‘thin client’.</td>
<td>Estimated 50</td>
</tr>
</tbody>
</table>
Purchase of new computers/workstations will decrease as we move to tablets or other mobile devices. Each computing scenario will drive the decision. Virtualization and thin client purchase is cheaper than buying a new workstation; however, many systems in place cannot run on a ‘thin client’ or virtualized machines – necessitating the purchase of a new desktop computer replacement.

**Technology Goal:**

**Move towards a mobile, wireless environment for BYOD and classrooms-without-walls ideologies.**

- Objectives
  - Upgrade our Internet filter to allow for policy-based filtering on all devices accessing the wi-fi network.
    - Successfully installed a new, upgraded device over Spring Break and it has been placed into service.
  - Install Enterprise-level wireless controller.
    - Installed Cisco wireless controller into our virtual environment successfully.
  - Build wi-fi access by installing access points throughout the district.
    - Successfully installed several in two buildings.
    - Many more will be installed over the summer when new infrastructure gets in place.

**SUMMER PLANNING**

- Over the summer, the Infrastructure Project will begin. We are slated to start during the first week of July. Ordering of parts by Annese/BOCES has begun.
- New access points will continue to be installed throughout the district.
- Windows 7 installations, deployments need to happen as discussed above.
- Increase the use of iPads in preparation for PARCC testing. Will require the purchase of many more iPads and the configuration of said iPads. iPads will be able to be used in classrooms until testing takes place.
- Workshops being scheduled for teacher use of iPads and My Big Campus.
  - My Big Campus is an online learning platform that we get with our Internet Filter at no additional cost. It can be used by teachers for students, as Professional Learning Communities, etc.

Highland Central School District Selection/Classification Policy

The New York State Education Department and the New York State Public High School Athletic Association endorse a selection/classification system whereby middle school students can qualify for high school athletic programs after a screening process to determine their readiness (physical maturity, fitness and skill) to compete in interscholastic athletic competition. The intent of the Highland Central School District athletic program, when all criteria are met, is to provide students in grades 7-12 an opportunity to participate at an appropriate level of competition based on readiness rather than based solely on age and grade. In the Highland Central School District the selection/classification screening process shall be used sparingly and only for those students who display an exceptional aptitude and skill for a particular sport.

1. **Seventh and Eighth Graders** (with certain criteria listed below) may qualify, using the selection/classification process to try out for junior varsity or varsity programs where a program exists in the district for the sport of interest.

   - **Criteria**
     - Students must meet all of the state mandated criteria for readiness including (physical maturity, fitness and skill).
     - Students must also meet additional academic and behavioral/emotional maturity criteria to be considered for the selection/classification process:
       - Students must have a “B” average or above (80 or higher) in their core academic courses.
       - Students must submit a behavioral/emotional maturity recommendation form from a current building administrator, guidance counselor, or teacher who is not the coach of the sport that child is interested in trying out for.
     - If a student in 8th grade has reached the chronological age of 15 years old prior to September 1, they are eligible to participate on high school athletic teams without being processed through the Selection/classification screening process. These students must still have the appropriate medical documentation to participate in athletics.
     - If a student has been processed through the Selection/Classification screening procedure and participated in the 7th grade, the process would not have to be repeated in the 8th grade as long as they remain at the same level of athletic competition in the same sport category. If the student changes levels or sports, the Selection/Classification screening procedure must be repeated to meet the specific athletic performance and developmental standards.

     - Selection/classification screening is not to be used to: fill positions on a team when interest in the sport is lacking; reward a student; provide additional experience; or simply provide a place for middle school students when no modified program exists.
- Students must meet all of the eligibility requirements of the Selections/Classification process to earn the opportunity to try-out for the sport of interest. Qualifying for a try-out does not guarantee placement on the team roster.

- All students who try-out for a team will be fairly judged using an objective rubric and or try-out assessment form. The selectively classified student will be ranked along with all students who try out for a team and the selectively classified students will not be placed on the junior varsity or varsity-level team unless their performance is judged to be equal to or superior to that of the high-school aged players.

- Participation on any athletic team is a privilege, not a right. If a student who has been selectively classified to participate at an advance level does not continually meet the behavioral and academic criteria set forth in this document, they may be removed from the high school level team.

2. Highland CSD will not be utilizing the following items from the New York State Selection Classification Program for Interschool Athlete Program Guide dated March 2005:
   - Special Approval Request Application
   - Special Case Physician Forms for Both Boys and Girls

3. Highland CSD has modified Attachment F (Athletic Performance Testing Instructions For The Tester) as shown in the New York State Selection Classification Program for Interschool Athlete Program Guide dated March 2005 to limit the number of times items can be retested.

4. In cases where Highland is allowing students from other school district to participate on Highland’s athletic teams, students from those districts who seek to utilize the selection/classification process must be tested evaluated using the Highland CSD policy and processes.
Highland Selection/Classification Implementation Procedures

Students, teachers, coaches, or parents/guardians may request the director of physical education/athletics to process a student through the Selection/Classification screening procedure. Students will not be exposed to the screening procedure without a specific request.

If a student in grade 7 or 8 has reached the chronological age of 15 years old prior to September 1, they are eligible to participate on high school athletic teams without being processed through the Selection/Classification screening procedure. Only medical approval by the school district physician is required. The reason that these students are eligible for the high school teams is that they are already at an advanced age and will lose some of their four years of high school eligibility due to being over age if not allowed eligibility.

If a student has been processed through the Selection/Classification screening procedure and participated in the 7th grade, the process would not have to be repeated in the 8th grade as long as they remain at the same level of athletic competition in the same sport category. If the student changes levels or sports, the Selection/Classification screening procedure must be repeated to meet the specific athletic performance and developmental standards.

If a student fails to meet one or more of the athletic performance standards related to the Selection/Classification screening process, he/she may not be retested more than the number of attempts listed in the state directions for that activity.

In conclusion, the Director of Athletics ensures compliance with the Selection/Classification regulations. The Director of Athletics will be responsible for ensuring that the Selection/Classification procedures are implemented in an ethical manner, following all the Highland Central School District protocols. Working in this capacity, the Director of Athletics is required to implement the following required procedural phases:

Phase 1
The Director of Athletics will convene a committee/small group, similar to a pared-down mixed competition panel, to perform a pre-evaluation assessment of the student to determine if the student has the potential to successfully participate at a higher level of athletic competition.

Phase 2
The screening process may begin when requested by the student, parent, recommended by a coach or physical education teacher, or suggested by the Athletic Director. All students who are to be screened for the program must first obtain parental permission and then start with the school physician. Athletic performance testing may be done only after the school physician gives Selection/Classification approval.

Phase 3 The Director of Athletics will send letters and forms to the individuals involved in the Selection/Classification process as follows:

a) Parents – The screening procedure must not begin until the director of physical education/athletics has received parental permission (see Attachment C).
b) **Health and Developmental Rating by the School Physician** – Care must be taken to familiarize the school physician with the Selection/Classification model program and its purpose. It should be emphasized that the screening process to determine the developmental rating of each candidate be as inconspicuous and discreet as possible (see Attachments D and E).

c) **Academic and Behavioral/Emotional Maturity Criteria**—Teachers, principals, guidance counselors, social worker and school psychologists may participate in providing evidence and/or evaluate of the student’s Academics and Behavioral/Emotional maturity (See Attachments A1 and A2).

d) **Sport Skill Evaluation by the Coach** – The coach must understand the intent and purpose of the program and he/she must place the student’s welfare above all else (See Attachment G).

e) **Performance Testing** – The performance test must be administered by a physical educator who is not the coach of the team for which the student is being evaluated (See Attachment I).

**Phase 4** When final approval related to all procedural requirements of Selection/Classification has been granted to the student, he/she may now participate in the tryout period associated with the higher level of specific athletic competition. All New York State Public High School Athletic Association (NYSPHSAA) Try-Out Regulations found on page 97 of the NYSPHSAA 2004 - 2006 Handbook must be followed. Additionally, all try-outs must be assessed using a skill-based rubric related to the sport and student performance must be ranked in comparison to all the students who try-out for the team.

**Phase 5** The Athletic Director will mail notices to all schools director of physical education/athletics and section officials announcing the students approved to participate in Selection/Classification and listing their athletic performance scores (See Attachment H). Also, a letter will be mailed to the parents of the child explaining the outcome of the screening procedure and outlining the eligibility limitations for their child.

**Phase 6** The Athletic Director will provide the Superintendent of Schools with a season by season report on all students who participated in and the corresponding results of any Selection/Classification Testing.

**Phase 7** The Athletic Director must maintain a permanent Selection/Classification record for each student who qualifies. This record is to remain on file in the director's office. The following information must be included:

☐ Academic and Behavioral/Emotional Maturity Criteria (Attachments A1 & A2)

☐ Individual Athletic Profile (Attachment B)

☐ Parental Permission (Attachment C)

☐ Developmental Screening
(Attachment D – Males)
(Attachment E - Females)

☐ Athletic Performance Testing (Attachment F)

☐ Coach’s Sport Skill Evaluation (Attachment G)

☐ Notification of Qualifications (Attachment H)

☐ Letter to Parent
