1. **Summer Work**

   Summer work for teachers is under way. Foreign Language (LOTE) teachers are aligning curriculum this week. The Blended Learning Summit at BOCES also begins this week. We have a strong group participating in the BOCES program, then working with Carol Potash later in the summer to create some blended learning opportunities for our students next year. The work is being done 6-12 and represents a cross section of content areas: reading, LOTE, Social Studies, Science, Math, English and others. All in all, we have over 50 teachers participating in Highland summer work and another group taking advantage of opportunities through BOCES. We have work happening almost every week this summer! The majority of the work will be paid for through the STLE grant. Luckily grant extends through next school year, so we will be able to continue the work started over the summer.

   In addition to the teacher work, Peter Harris, Carol Potash, Deborah and I are participating in an online course titled, *Leading Successful Blended and Online Learning Initiatives*. The course should assist us as we update our technology plan and support teachers’ efforts to integrate blended learning into our curriculum.

2. **Common Core Regents Exams**

   We received the scoring conversion charts for both the Common Core Algebra and ELA regents exams Wednesday evening, June 25. The scores represented the rigor we had expected. As we have stated previously, students this year had the opportunity to take both the old and new common core exams and receive the higher score for credit. Happily, a score on one common core exam allowed one more of our seniors to graduate. I’ve included a copy of each of the new common core tests for you to see. I will share more data on the tests as we process it.

3. **Administrative Retreat**

   Our administrative retreat will be held at Vineyard Commons on Monday and Tuesday, July 14 and 15. We have a hefty agenda for the two days! We will be focusing on the vision in our departments, clarifying internal systems between departments and conducting investigations.
GENERAL

- The end of the year finished off uneventfully. Setup for the moving up ceremonies in the gym went quickly. Set up for the high school graduation was planned with the layout of the field and the graphics done on Tuesday, painting on Wednesday, excess chairs from the indoor ceremonies set up Thursday morning. Then we went into a holding pattern until 1:15 PM – then the stage and the remaining 700 (+,-) chairs were moved and set up on the football field. There were 1,188 chairs set for the parents and guests. 255 chairs for graduates, band and chorus. Fourteen (14) custodial, grounds and maintenance personnel completed the setup and then relocated to park cars. The parking lot crew was comprised of a total of seventeen (17) personnel.

- The buildings are set for the summer shakedown. Crews have been established and begin on June 30 preparing for the 2014-2015 school year. Cleaning coordination, in conjunction with building use (increases every summer) and the work of the Energy Performance Contract will most likely present a challenge at times.

GROUND

- After the late winter, the sports schedule and the absence of one of the key grounds men, we have caught up with the grounds work.

- The high school football field will be watered as needed. We are still working to get water to the middle school field. Cooperation with the Dig Safely mark out vendor has slowed this project as we attempt to find the reason the existing water line does not flow water and where it actually may terminate. We have what we think is the end of the line, but no water flows.

- O&M equipment authorized by the referendum is being selected and ordered.

FACILITIES

- The high school off heating season water heater is scheduled to be installed the week of 7/7/2014. This will allow the boilers to be shut down.
FACILITIES (Continued)

- Shades. Through research, negotiation and the agreement our maintenance staff will install them, the district has been able to acquire a volume pricing structure which will enable us to replace 249 shades throughout the three (3) schools. Monies for this project are being taken from the account established originally for glazing work, now anticipated to be included in the capitol project being developed. The PO was written against this budget line for the 2013-2014 school year in the amount of $19,937.72.

- In the five (5) month period, January through May, 2014, the district experienced approximately a 40% increase in electric and gas costs due to the cold weather and increased demand in the region. This equated to an approximate increased cost of $42,072 year-over-year. Although the “capacity costs” associated with these utility expenses appeared to begin to fall in line in March and April, they again spiked in May.

June invoices have not been received and processed yet.

In conjunction, the Federal Energy Regulatory Commission established a new capacity zone called the Lower Hudson Valley Capacity Zone (LHV) implemented on May 1, 2014. This capacity zone pricing may affect the districts energy bills by 10% (+,-). This may have been what caused the spike in the May invoices. June will be telling as heating will be out of the equation and there was minimal air conditioning during the month. The total impact of the capacity zone on the district’s $350,000 gas and electric costs is still a little tentative at this time.

EQUIPMENT

- No new or additional issues.

SCHOOL BUS MAINTENANCE

- As of 6/24/2014, in this year’s inspection cycle, 23 buses have been inspected; one (1) failed, yielding a 95.65% passing rate.

RECORDS MANAGEMENT

- All work being conducted under the Records Management Grant has been completed. Records are now all catalogued by type and date of destruction (except permanent records). 193 boxes of records have been shredded. Six (6) boxes of records with a June 30, 2014 destruction date remain to be destroyed.

PERSONNEL

- Two (2) custodial worker positions, one (1) retiree and one (1) resignation are in the process of being filled. Recommendations were provided to the Superintendent and are forth coming to the BOE.
