Building Use Policies and Procedures

**Community Use of School Facilities – Policy #3280**

It shall be the policy of the Board to encourage the greatest possible use of school buildings for community-wide activities. This is meant to include use by recognized civic, social and fraternal and religions organizations. However, in accordance with law, District facilities may not be used by community groups for aiding any religious purpose or for any denominational doctrine, instruction or service. Groups wishing to use the school facilities must secure written permission from the Superintendent and abide by the rules and regulations established for such use. The Superintendent, at his/her discretion, may consult with the Board of Education. Monthly reports may be made to the Board regarding community use of the school facilities.

**Evacuation Procedures for Fire Emergencies**

Your group or organizations representative will be required to notify persons in attendance at the beginning of a program, event or performance of the proper procedures to evacuate the building in an orderly and timely manner in the event of a fire emergency.

**Auditorium Use**

The following rules are to be used by all groups or organizations requesting the use of the auditoriums:

5. NO tape should ever be applied to the gym floors.
6. Participants must be supervised at all times to ensure proper use of district equipment. This includes deterring abusive practices such as hanging on basketball rims or nets.
